Scope of work for Onsite activities on SM#I SATCOM system

ver1 dtd 01.02.24

A) Subcontractor's Scope of Work (M/s ECIL):

- A procurement of material and manufacturing of cabling inside the antenna (including rear wall pressure connector) closest to the mast.
- M/s ECIL to confirm availability of M/S Indra representatives in India (only after having available the elements to manufacture this cabling. M/s ECIL (through M/S. Indra) will execute the onsite activities in two trips, of one (1) calendar month duration each one, by a maximum of two (2) people, with the additional support in India of one (1) additional person, during the last ten (10) days of each trip, for executing those of the following activities that could be performed in this period:
- Replacement of "rear wall pressure cabling" (mentioned above to be supplied by M/s ECIL (through M/S. Indra) as well as broken elements that are possible to be replaced in India (already known BUC, IMU, Polarization Motor) available at MRLS and provided by IN to ECIL / M/S. Indra for this purpose.
- Checking the status of antenna and provide a report with recommended actions to follow by IN. As per M/s ECIL/M/s Indra there are high probability that antenna might need to be sent back to Spain i.e. OEM premises for quotation of replacement of extra elements found damaged).

B) Assumptions and Conditions by M/s ECIL:

- ECIL along with OEM M/S. Indra will execute as much tasks as possible during the duration of each proposed trip among the ones defined in the Scope of onsite activities.
- M/s ECIL and OEM M/S. Indra recommends to execute the activities onsite only after having available the necessary cabling (as mentioned above).
- To appropriately manage the activities, the availability of the submarine, MRLS spares shall be informed at least one (1) month in advance and SMT needed for the tasks should be available next to the antenna and availability of a working area for the tasks to be assigned with clearance for ECIL / M/s Indra.
- As per the OEM M/s Indra, the standard way to proceed in the industry implies the SM#I antenna needs to be sent to OEM premises for DI/DR. However, following ECIL & IN request has confirmed acceptance for undertaking the repair at Naval Dockyard, Mumbai.
- Any intervention in India cannot confirm that the repair of the Satcom system will be accomplished, due to uncertainty regarding the present status of the system and difficulties in replacing many elements of the antenna that can only be performed in the OEM factory.
