(a) The terminology/ definitions used in the said order is as below:

(i) **“Local content” means** the amount of value added in India which shall be the total value of item (goods, services or works or their combination) under procurement (excluding net domestic indirect taxes) minus the value of imported content in the item (including all customs duties) as a proportion of the total value in percent. Different definition of Local Content may be specified by the Nodal Ministry for items assigned to them, which will prevail over above.

Explanatory notes for calculation of local content given above

(a) Imported items sourced locally from resellers / distributors shall be excluded from calculation of local content.

(b) The license fees / royalties paid / technical charges paid out of India shall be excluded from local content calculation.

(c) Procurement / Supply of repackaged / refurbished / rebranded imported products as understood commonly shall be treated as reselling of imported products and shall be excluded from calculation of local content. The definition of repackaged / refurbished / rebranded imported products is as follows;
